Additional Notes for competitors

Note: If the start is delayed, The Start numbers will remain the same. Recalculate the finish time based on the actual start time.

Example of setting your watch/starting.

Your start minute is 31.
 Your watch is set for 5, 4, 1, start.
 Start your watch for 5 minutes as number 26 appears.
 Start when 31 appears.

It is the competitors' responsibility to start on the correct minute.

Postponement on the water

If a race is postponed and then started on the scheduled day, then the race officer may display a start number at the warning signal. This number will then be incremented on each minute and will be the start numbers to be used in the race.

The start number displayed at the warning signal will normally be 5 less than the start number of the slowest class entered.

The actual start time for each group shall not be earlier than that advertised for the original race.
